

Our Lady of Renovations

DIY PRAYER CANDLE

You will need:

- Color printer
- Scissors or X-acto knife
- 8" glass church candle with no label, available at Walmart and at Hispanic markets. Any color will do.
- Spray adhesive, available at any hardware store or craft store (3M Super 77, 3M Hi-Strength 90, or Krylon High Strength Spray Adhesive are all good ones)

Step 1:

Print this page out on your color printer.

Step 2:

Carefully cut out the two labels on the right. On the prayer label, cut close around the irregular edge as it makes the duct tape effect more realistic.

Step 3:

Following the directions on your spray adhesive, attach the labels carefully to the front and back of your candle as shown at right.

Step 4:

Light your candle and **pray!**

Prayer to Our Lady of Renovations

My home is my castle;
I shall renovate.

Thou maketh me subscribe to
home improvement magazines;
thou leadeth me to HGTV.

Thou restoreth my
home equity line of credit;
thou leadeth me in the
paths of landscaping.

Yea, though I walk through
the aisles of Home Depot,
I shall fear no demolition
project: for thou art with me;
thy crowbar and thy hammer
they comfort me.

Surely home value appreciation
shall follow me all the days of
my life, and I will dwell in my
house peacefully.

AMEN.
